Overview
The purpose of this CNE activity is to explore spirituality in geriatric nursing care through an independent, self-paced educational activity.

Target Audience
This activity has been designed to meet the educational needs of registered nurses who provide care to older adults.

Learning Objectives:
Following this education activity, the participant will be able to:
1. Describe developmental tasks in late life.
2. Differentiate religion and spirituality.
3. List eight spiritual needs.
4. Describe at least three methods for assessing the state of a person.
5. Discuss measures the nurse can use to care for a person’s spirit.
6. Identify at least five signs of spiritual distress.
