Attendees at AHNA conferences are registered nurses, educators, administrators, and other healthcare practitioners that experience the healing value of holistic community, networks, sharing circles and mentorship. The purpose of AHNA’s 33rd annual conference was to empower holistic nurses to transform their knowledge and passion into purposeful, conscious intentional action for the highest good of humanity and the planet. Holistic nurses left this conference equipped with new skills and approaches to participate meaningfully in health care evolution. Attendees enjoyed early morning activities such as Laughter Yoga and Tai Chi Chih and celebrated at the banquet with a silent auction and dancing.

AHNA invites companies and organizations to sponsor their 34th Annual Conference in Portland, Oregon at the Portland Marriott Downtown Waterfront June 5-8, 2014. The theme will be Through the Looking Glass: A Vision of Holistic Leadership and all holistic health practitioners are invited to join us as we explore new and exciting ways to transform health care.
