October 2, 2017

The American Holistic Nurses Association would like to extend our deepest condolences to the people of Las Vegas and to those grieving after the incident this weekend. Having seen the strength and resilience of the people of Nevada and Las Vegas, we know that the city will recover.

AHNA would also like to acknowledge the Emergency Response units on scene that night, the Las Vegas Police Department and the multitudes donating blood for victims of the assault. Each doing their part to ensure the safety and survival of hundreds who were injured and preventing more from injury.

Our thoughts and prayers are with the City of Las Vegas, the victims and their loved ones. AHNA will continue to send healing intentions and energy in the days and weeks of recovery ahead.

-President Lourdes Lorenz-Miller, MSN-IH, RN, AHN-BC, NEA-BC
