A Global Perspective on Creating Space to Nurture Wholeness in Nursing & Nursing Care vs Holistic Nursing: Is It a Single or Double Helix?

Article by: Madeline Naegle, PhD, CNS-PMH,BC, FAAN & Judith Shamian, RN, PhD, LLC (hon), D.Sci (Hon), FAAN

CNE by: Margaret O’Brien King, PhD., RN-BC, AHN-BC, CNL
Barbara Harland, MSN, MEd, RN, CNL
Jennifer Bradley, PhD, RN, AHN-BC
Elizabeth Pasquariella, MSN/ED, RN, HN-BC, RYT
Darcy Nelson, PhD, RN

Overview
The purposes of these articles are to explore opportunities for the growth and greater acknowledgement of the global use of holistic practices as well as increased opportunities to build the science and evidence-based practice in holistic nursing and to explore the components necessary to promote the global integration of holistic nursing care with holistic care.

Learning Objectives:
Following this education activity, the participant will be able to:

• Identify current trends that support holistic practice.
• Discuss principles of holistic nursing through a global lens.
• Explore the process to facilitate support for holistic nursing practices in global settings.
• Describe how global health issues provide opportunities for growth, greater acknowledgement and use of holistic practices.
• Discuss the difference between the single helix and the double helix.
• Identify the factors necessary in the development of “people-centered healthcare”.
